### STRIKERS LOSE THEIR PERMITS

Portland Marine Inspectors Revoke Licenses of Elder's Engineers.

### MEN REFUSED TO TESTIFY

When Called to Stand They Declined to Be Sworn or to Assign Any Reason for Refusal of Duty.

PORTLAND, Oct. 11.—J. F. Sullivan, C. F. McKenzie and E. B. Huston, recently first, second and third engineers of the steamship George W. Elder, are no longer permitted to act as licensed marine engineers, the local inspectors today revoked their licenses.

The investigation by the United States inspectors regarding the strike on the steamship George W. Elder came to an abrupt end today. The sudden termination was caused by the refusal of Third Assistant Engineer Huston to testify as to his reasons for leaving the steamer on such short notice. When he was called to the stand he immediately refused to be sworn, and stated that he was acting upon the advice of his attorney and he would decline to answer any questions that were put to him. His action left the board with no alternative except to revoke his license, which it did at once. The inspectors decided to revoke the licenses of both Sullivan and McKenzie.

The charges brought against the men by the O. R. & N. Co. were based on section 443 of the revised statutes, which forbids licensed officers to refuse duty to the detriment of commerce without first giving their employers good and sufficient reasons for so doing.

### SOLDIERS GUARD THE CITY.

Big Body of Troops at New Orleans to Prevent Disorder.

NEW ORLEANS, Oct. 11.—Though martial law has not yet been declared and will not be until the conditions in the street car strike demand such extreme measures, New Orleans is practically under military protection, about 1400 soldiers, all well armed and under splendid discipline, having already reported for duty, with probably 100 more on the way.

The presence of the soldiers and the expressions of firmness and determination in Governor Heard's proclamation to the citizens demanding the restoration of order have restored confidence, although the street car strikers are more sullen than ever.

Plans are being laid to start the cars Monday and Governor Heard says that they will continue to run.

### AMERICANIST SOCIETY MEETING.

International Congress to be Held in New York October 20.

NEW YORK, Oct. 11.—Duke De Loubat, founder of the Society of Americanists, is expected here from Paris to attend the thirteenth international congress of that society, which will be held on October 20 in the halls of the American Museum of Natural History. The meetings will be continued until October 25. The object of the congress is to bring together students of the archaeology, ethnology and early history of the two Americas, and by the reading of papers and discussions to advance knowledge of these subjects. The subjects to be discussed by the congress relate to the native races of America, their origin, distribution, history, physical characteristics, languages, inventions, customs and religions, and the history of the early contact between America and the Old World.

CARRIE NATION STILL LIVES.

GUTHRIE, O. T., Oct. 11.—Mrs. Carrie Nation, the Kansas temperance

agitator today at noon administered a severe tongue lashing to Governor Ferguson, who was suddenly confronted by her while about to enter his office. She rebuked him for the existence of the saloons in Oklahoma and prayed for the day that the women may be in power to stop the liquor traffic. She entered every saloon in the city today and administered a lecture to the owners.

### OLDEST PERSON IN COUNTRY.

Colored Woman Dies in Chicago at the Age of 122.

CHICAGO, Oct. 11.—A woman who, according to her own report, was living at the time of the Boston tea party and the meeting of the first Continental congress, is dead at the home for aged and infirm colored people. If the reports of her age should be correct, she was the oldest person in Illinois, and possibly in the United States. The woman was Ellen Stewart, a slave before the Civil war, three times married and mother of four children, the last of whom died several years ago of old age. According to her story, she was born in 1779 and consequently was 122 years old. The officials of the institution in which she died, after an investigation as thorough as could be made, credited her statement.

Until within a few months of her death, the woman was in complete control of her senses and told many stories of men and women distinguished in the earlier days of Virginia and Kentucky. She was born in Virginia.

### STRIKE AT FRESNO.

Employees of Raisin Concerns Quit For Increase in Wages.

FRESNO, Calif., Oct. 11.—One hundred and fifty men, dissatisfied with the rate of wages they were receiving, have walked out of the Pacific Coast Seeded Raisin Company's plant No. 5. At Markarian's packinghouse about 40 men went out, but in less than an hour the increase of wages demanded was granted and they returned to work.

At Guggenheim's house, the raise asked for was granted within 10 minutes after the men struck.

The 400 employees of raisin packinghouses in this city have taken steps to form a union, with the object of securing higher wages.

### OLNEY'S BOOM LAUNCHED.

Hailed in Boston as Next President of the United States.

BOSTON, Oct. 11.—One of the features of the present state campaign was the dinner which the Democrats of Massachusetts tendered tonight to William A. Gaston, the party candidate for governor. Over 150 of the party followers listened to the speeches by Richard Olney, ex-secretary of state and others.

The speech of the evening was delivered by Mr. Olney. Many greeted him as the next president.

### GLEE CLUB COMING NORTH.

Stanford Entertainers to Visit Principal Coast Cities.

STANFORD UNIVERSITY, Oct. 11.—The combined glee and mandolin clubs have decided upon the itinerary of the annual holiday tour. The clubs will leave the university about December 16 and their tour will include the leading cities of California, Oregon and British Columbia. The first appearance will either be made in Stockton or Sacramento.

### BERNARD MOSES RESIGNS.

Philippine Educator Deserts to Return to Berkeley College.

MANILA, Oct. 11.—Commissioner Bernard Moses, head of the department of public instruction for the Philippine islands, has resigned the commissioner ship in order that he may return to the University of California, where he occupies the chair of history and political economy. His leave from the university will expire next July.

### END OF STRIKE NOT IN SIGHT

Two Conferences Held in New York, but Results Withheld From Public.

### NEW PRISON FOR STRIKERS

Great Stockade Built by Military at Wilkesbarre—The Proposed Action Will Be Contested.

NEW YORK, Oct. 11.—There is no news in New York city tonight which would tend to show that an end of the coal strike is any nearer than it has been for some time past.

Several conferences were held during the day, chief among them being that between Secretary of War Root and J. Pierpont Morgan. This one lasted for several hours and then the two drove to the Union Club. Root did not stay long, but soon after left for Washington.

Chairman Thomas, of the Erie road, had a talk at the Fifth Avenue Hotel with Senator Platt, but what was said at any of the interviews was not made public.

### PRISON FOR STRIKERS.

Stockade Built by Troops—Miners Will Make Protest.

WILKESBARRE, Oct. 11.—The stockade built on the camp grounds of the Ninth regiment was completed today. It will be used, Colonel Dougherty says, as a prison for all persons arrested for breaking the peace in connection with the strike. It is the purpose of the military officers to hold without bail all persons who are arrested by the soldiers until such time as the authorities feel justified in releasing them, provided that they have committed no crime.

The decision of the military officers not to turn the prisoners over to the civil officers has stirred up a hornet's nest among the strikers. It is claimed by their attorneys that to arrest a man and hold him without bail is illegal. The intention of the miners' local union is to test the matter in the courts.

### SHIPMENTS OF COAL.

Fifty-seven Hundred Tons of Anthracite Sent from Reading.

READING, Pa., Oct. 11.—During the day and last night the Reading company claims to have sent through this city 5700 tons of anthracite coal. The officials declare that the week's shipments aggregate over 20,000 tons. Before the strike the daily shipments were from 40,000 to 50,000 tons.

### HILL ON PUBLIC OWNERSHIP.

Proposal Does Not Commit Party to Any Definite Policy.

NEW YORK, Oct. 11.—The Democratic state campaign was opened tonight in Brooklyn. Speeches were made by David B. Hill and others. Of the plank of the state platform demanding government ownership of the mines Mr. Hill said:

"The Proposition is neither startling, revolutionary, socialistic, nor paternal but it is constitutional and it is a necessary extension of the general policy of public ownership already largely prevailing in municipalities of the country.

"This proposition does not commit the party to any projects of public ownership, whatever their merits, if any, there may be."

### GROUND BROKEN FOR HALL.

Spade of Gold and Silver Used in Ceremony at Washington.

WASHINGTON, Oct. 11.—With elaborate exercises, the ground was broken today for the Memorial hall of the National Society of the Daughters

of the American Revolution at Seventeenth and D streets, northwest. The spade with which the earth was turned was presented by the Montana Society through Mrs. Harvey Weede, vice-president of that state, who read a poem written for the occasion by Ella Wheeler Wilcox.

The spade is made of gold and silver taken from the Montana mines and is set with blue and white sapphires from that state.

### NEW FREIGHT TERMINAL.

Southern Pacific to Make Improvement at San Francisco.

SAN FRANCISCO, Oct. 11.—The Southern Pacific is to have a big freight terminal at Point Richmond, adjacent to the end of the Santa Fe railroad and to the extensive plant which the Standard Oil people are rapidly completing. Word has been received from New York, says the Examiner, that, after conferring with General Manager Kruttschnitt on the project, President Harriman has given it his approval.

The terminal will be connected with the Southern Pacific main line by the construction of a branch line from San Pablo. The new terminal is 10 miles by rail from the company's West Oakland freight yards, which have become too small for the traffic.

A branch system of shops will be erected at the new terminal. As near as can be ascertained ships to and from the Orient will load and unload Eastern freight at the terminal and all through freight from the East, the Northern states and the Sacramento valley will be handled here.

### KILLED OVER FIFTEEN CENTS.

Fatal Quarrel Between Negro and White Man at Pueblo.

PUEBLO, Colo., Oct. 11.—Henry Goldstein, a bartender at Levins' Chicago liquor house, was shot and killed tonight by William Lawrence, a negro, in a quarrel over 15 cents. Lawrence was taken to jail. There is strong talk of lynching.

### GERMAN BANK'S HEAVY LOSS.

PRAGUE, Oct. 11.—Further investigation into the affairs of the St. Vencelous Loan bank shows the amount of the shortage to be \$1,000,000, and that speculation had been carried on for 20 years. President Dozd, of the bank, lived sumptuously, and maintained two large villas. He gave large sums to his housekeeper, besides losing heavily on the Bourse.

### BOARDING 'ROUND.

LONDON, Oct. 11.—The American Generals Corbin and Young who are now visiting England until October 15, when they will sail for home, will not have a meal they can call their own.

### DEATH FROM FOOTBALL INJURY.

CHICAGO, Oct. 11.—Max Henry Elischer is dead as a result of an injury received in a football game six years ago.

Until two months ago Elischer's parents did not know of the accident, but as soon as his father learned of it he had an examination made which showed that the young man's skull was depressed. The skull was trepanned, revealing a diseased condition of the brain.

During the last six years Elischer had suffered from severe headaches. Several times he was found unconscious.

When the accident occurred Elischer was 15 years old and was anxious to get a place on the regular football team of his school. He was hit in the head and was picked up in a dazed condition, but exacted a promise from his playmates not to talk of the accident for fear his mother would not allow him to play any more.
